CAREER OBJECTIVES:

An enthusiastic and passionate student seeking opportunities to enhance my knowledge, collaborate with like-minded peers, and contribute to innovative projects. Eager to leverage academic knowledge and technical skills to support organizational activities and participate in hands-on experiences that foster personal and professional growth.

TRAININGS & EXPERIENCES:

1. Student Associate - Blended Learning Center (BLC), DIU | (February – November, 2025)

Worked as a Student Associate at the Blended Learning Center (BLC) for 9 months

- Trained up and mentored 5/7 Trainee, preparing them as a backup support team to ensure uninterrupted BLC operations.
- Provided direct support to students by resolving academic and technical issues related to BLC services and LMS usage.
- Gained hands-on technical experience in Learning Management System (LMS) operations and administration
- Built strong professional relationships with faculty members through collaborative tasks

2. Bengal Telecommunication & Electric Corp. (Pvt.) Ltd. – BETELCO

- Applied theoretical knowledge from academic courses to practical tasks in transformer manufacturing
- Learned the process of testing transformers for quality and efficiency
- Worked with engineers to understand transformer design, maintenance, and safety procedures
- Successfully completed 3 months of training and received a certificate for practical achievements

3. Executive of LEO Club of Khatunganj, Year (2022-23)

- Worked with other LEO clubs on joint activities and impact programs
- Planned and ran community service projects and fundraising events
- Handling club social media handles, club mail, reaching out to members

4. Deputy Creative Secretary – DIU Film Society

- Handled videography for various club programs and events.
- Played a crucial role in conceptualizing program ideas and visualizing stage setups.
- Contributed to video posting and editing for the club's media content.

5. EEE Club Programs – Volunteer

- Assisted in organizing the department's Iftar program, helping to prepare and package food
- Supported the team in distributing food during the event to students and faculty
- Helped with setup and logistics to ensure the program ran smoothly

6. Daffodil Family Day, 2026 – Volunteer

- Served as a team leader, guiding volunteers and ensuring assigned tasks were completed efficiently
- Acted as part of the backup team to handle unexpected issues and support overall event operations
- Volunteered at Food Booth one, assisting in food distribution and managing activity flow

EDUCATION:

i. Daffodil International University (Dhaka, Bangladesh)

B.Sc. in Electrical & Electronics Engineering

CGPA: 3.93/4.00 (Average)

ii. Chittagong Polytechnic Institute (Chattogram, Bangladesh)

Diploma in Electrical Engineering

CGPA: 3.36/4.00

iii. Nasirabad Govt. High School (Chattogram, Bangladesh)

Secondary School Certificate, Science Background

GPA: 5.00/5.00

SKILLS:

- Computer skills: Canva, PSpice, Microsoft Office Suite (Word, Excel, PowerPoint)
- Programming skills: Vibe Coder, WordPress Development, Advance level in Ai-Tools.
- Technical skills: Electrical house wiring.
- Language skills: Bangla (native), Hindi (conversational), English
- Soft skills: Teamwork & Collaboration, Project Planning & Time Management, Quick Learner.

PROJECTS (AI-Based & Academic):

1. RAG Based – Advanced Ai Chat Application

RAG-Based Advanced AI Chat Application is an intelligent conversational system built on retrieval-augmented generation.

- Uses an OpenAI OSS 120B-parameter model as the base architecture.
- Incorporates knowledge from 700+ DIU faculty profiles and institutional datasets.
- Developed with Python, LangChain, Flask on the backend & Next.js for frontend interface .
- Supports knowledge-based, agentic RAG, web, and vision search.
- Includes an admin panel for real-time dataset upload, update, and deletion.
